

Vortices Prospective · repaired · percentage-risk information-transport frontier

Full action is minimized under an allowed percentage increase from the common exact Law-risk anchor.

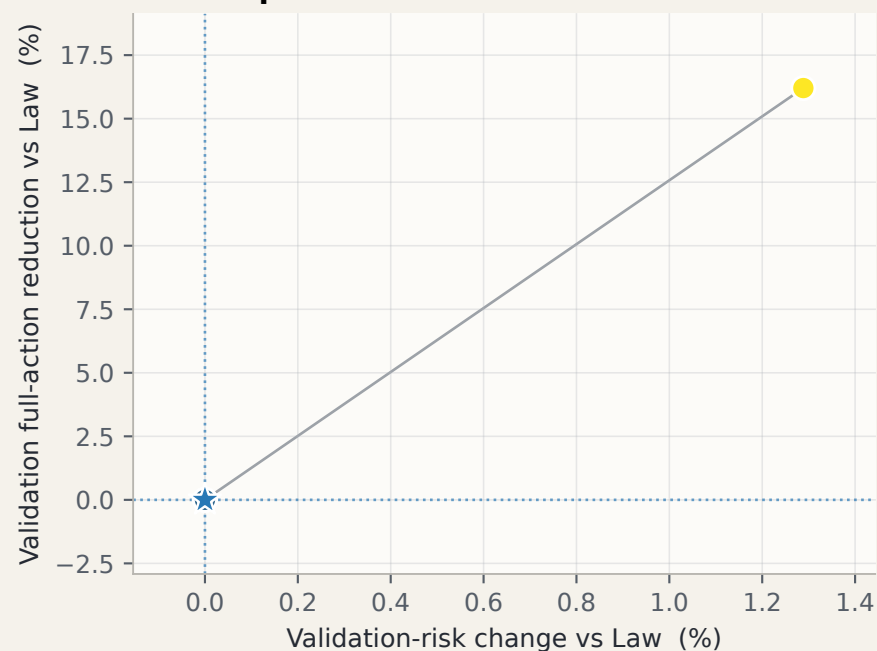

★ Law baseline ● nondominated + certified ○ certified but dominated ✕ failed certificate

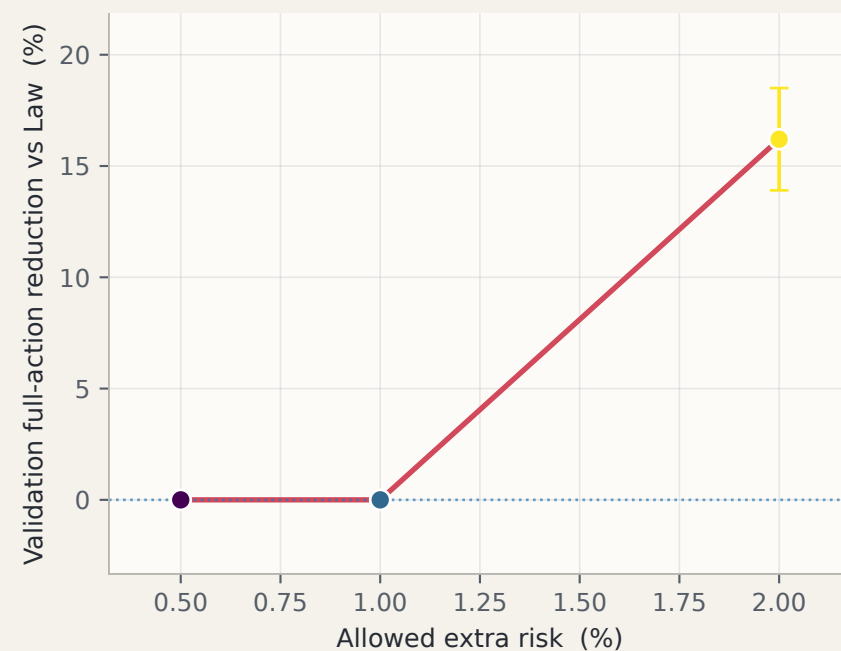

A Certified selection frontier

B Independent E1 validation

C Benefit across the risk allowance

D0/E1 are workflow artifact labels for selection/validation seeds. Tangent is omitted because there was not enough time to rerun it.
